## **Traffic Switch on Northbound Interstate 29/35 Happens Thursday**

NORTH KANSAS CITY, Mo. – Northbound traffic on Interstate 29/35, from 16<sup>th</sup> Avenue to just north of Armour Road, will be shifted to inside lanes following morning rush hour on Thursday, August 12, 2010 to continue road-widening work on the east side of the interstate. This traffic configuration will be in effect until late fall 2010.

“The crews on this project continue to work hard to meet or beat our project completion deadline of July 2011,” said kcICON Project Director Brian Kidwell. “Please continue to keep their safety in mind, as well as other drivers’ safety, when traveling through the corridor.”

The posted speed limit will remain 45 mph. kcICON Project team members ask that motorists continue to take other routes and consider alternative modes of transportation to alleviate traffic congestion, when possible.

All construction activities are weather dependent and subject to change. Updated lane closure information can be found on the project’s Web site at [www.kcicon.com](http://www.kcicon.com) or by calling the information hotline at 816-841-8888.
